

Quick Description

Twilight View of 123 Old Pond Road Anytown, USA

Nestled amongst the trees, our home is a 3000 sq. ft. Colonial with detached garage and full basement 100 yards off one of the prettiest streets in Anytown. Convenient to both Town and the Interstate, it is a secluded haven quickly accessible to both the big city, and the small town nearby. It is truly the best of both worlds.

This spacious colonial on an oversize lot has 4 bedrooms, 4 baths, a formal dining room, a Great Room with fireplace, a chef's eat-in kitchen, a glassed in Sun Porch, 10-Foot high ceilings, and an indoor swimming pool, housed in a separate atrium which can be enjoyed year round.

We boast one of the finest school systems in the country, and remarkably low taxes. (Taxes on this home last year were \$3000.)

Much in demand, homes in Anytown have not declined in value despite the current housing contraction. We have owned our home for 27 years, and during that time most homes in Anytown have increased in value by more than 10% a year.
